About us

Academia is one of the largest private education providers in Switzerland. As an independent, owner-operated business, Academia sets itself long-term goals that lead to sustainable success. Around 1,000 dedicated teachers and professionals at over 20 locations are devoted to helping individuals achieve their personal educational goals.

As innovative educational specialists, we at Academia take note of individual learning needs and develop flexible solutions. Our hand-picked, inspirational teachers deliver these solutions in thoughtfully designed learning settings. Our teaching, educational advice and administrative support are fully tailored to the needs of our clients.

We are a local presence for our clients. Our passion for education, our warmth and our openness shape our activities and make for relaxed and successful learning.

6 Education for every phase of life

Compulsory schooling

German, English or bilingual: **Academia Primar & Sek**, **Academia Bilingual School**, **Terra Nova Bilingual School** and **Academia International School** are committed to provide both a linguistic and holistic school experience to their pupils.

College education

International A Levels open doors to universities across the globe. Students can attend classes at **Academia International School** or follow a course of individual study with **Academia Matura**.

Individual learning support

Academia Nachhilfe supports children, youths and adults at all levels and in all subjects. It offers tutoring and targeted exam preparation adapted to the individual needs.

Integration programmes

Academia Integration provides integration programmes for children, youths and adults: literacy, language and basic skills in mathematics and computing.

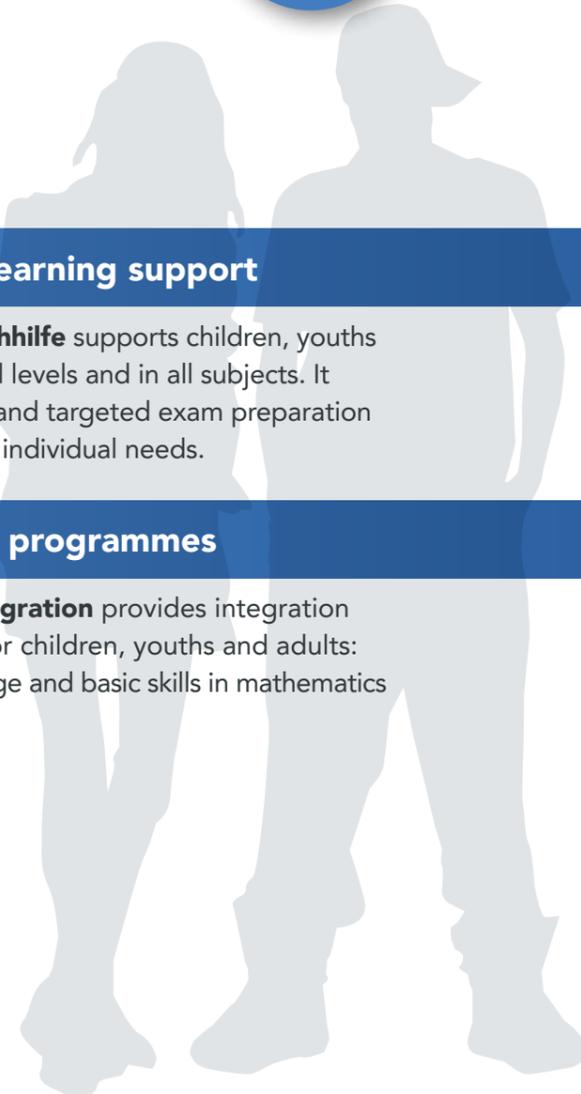

Language school

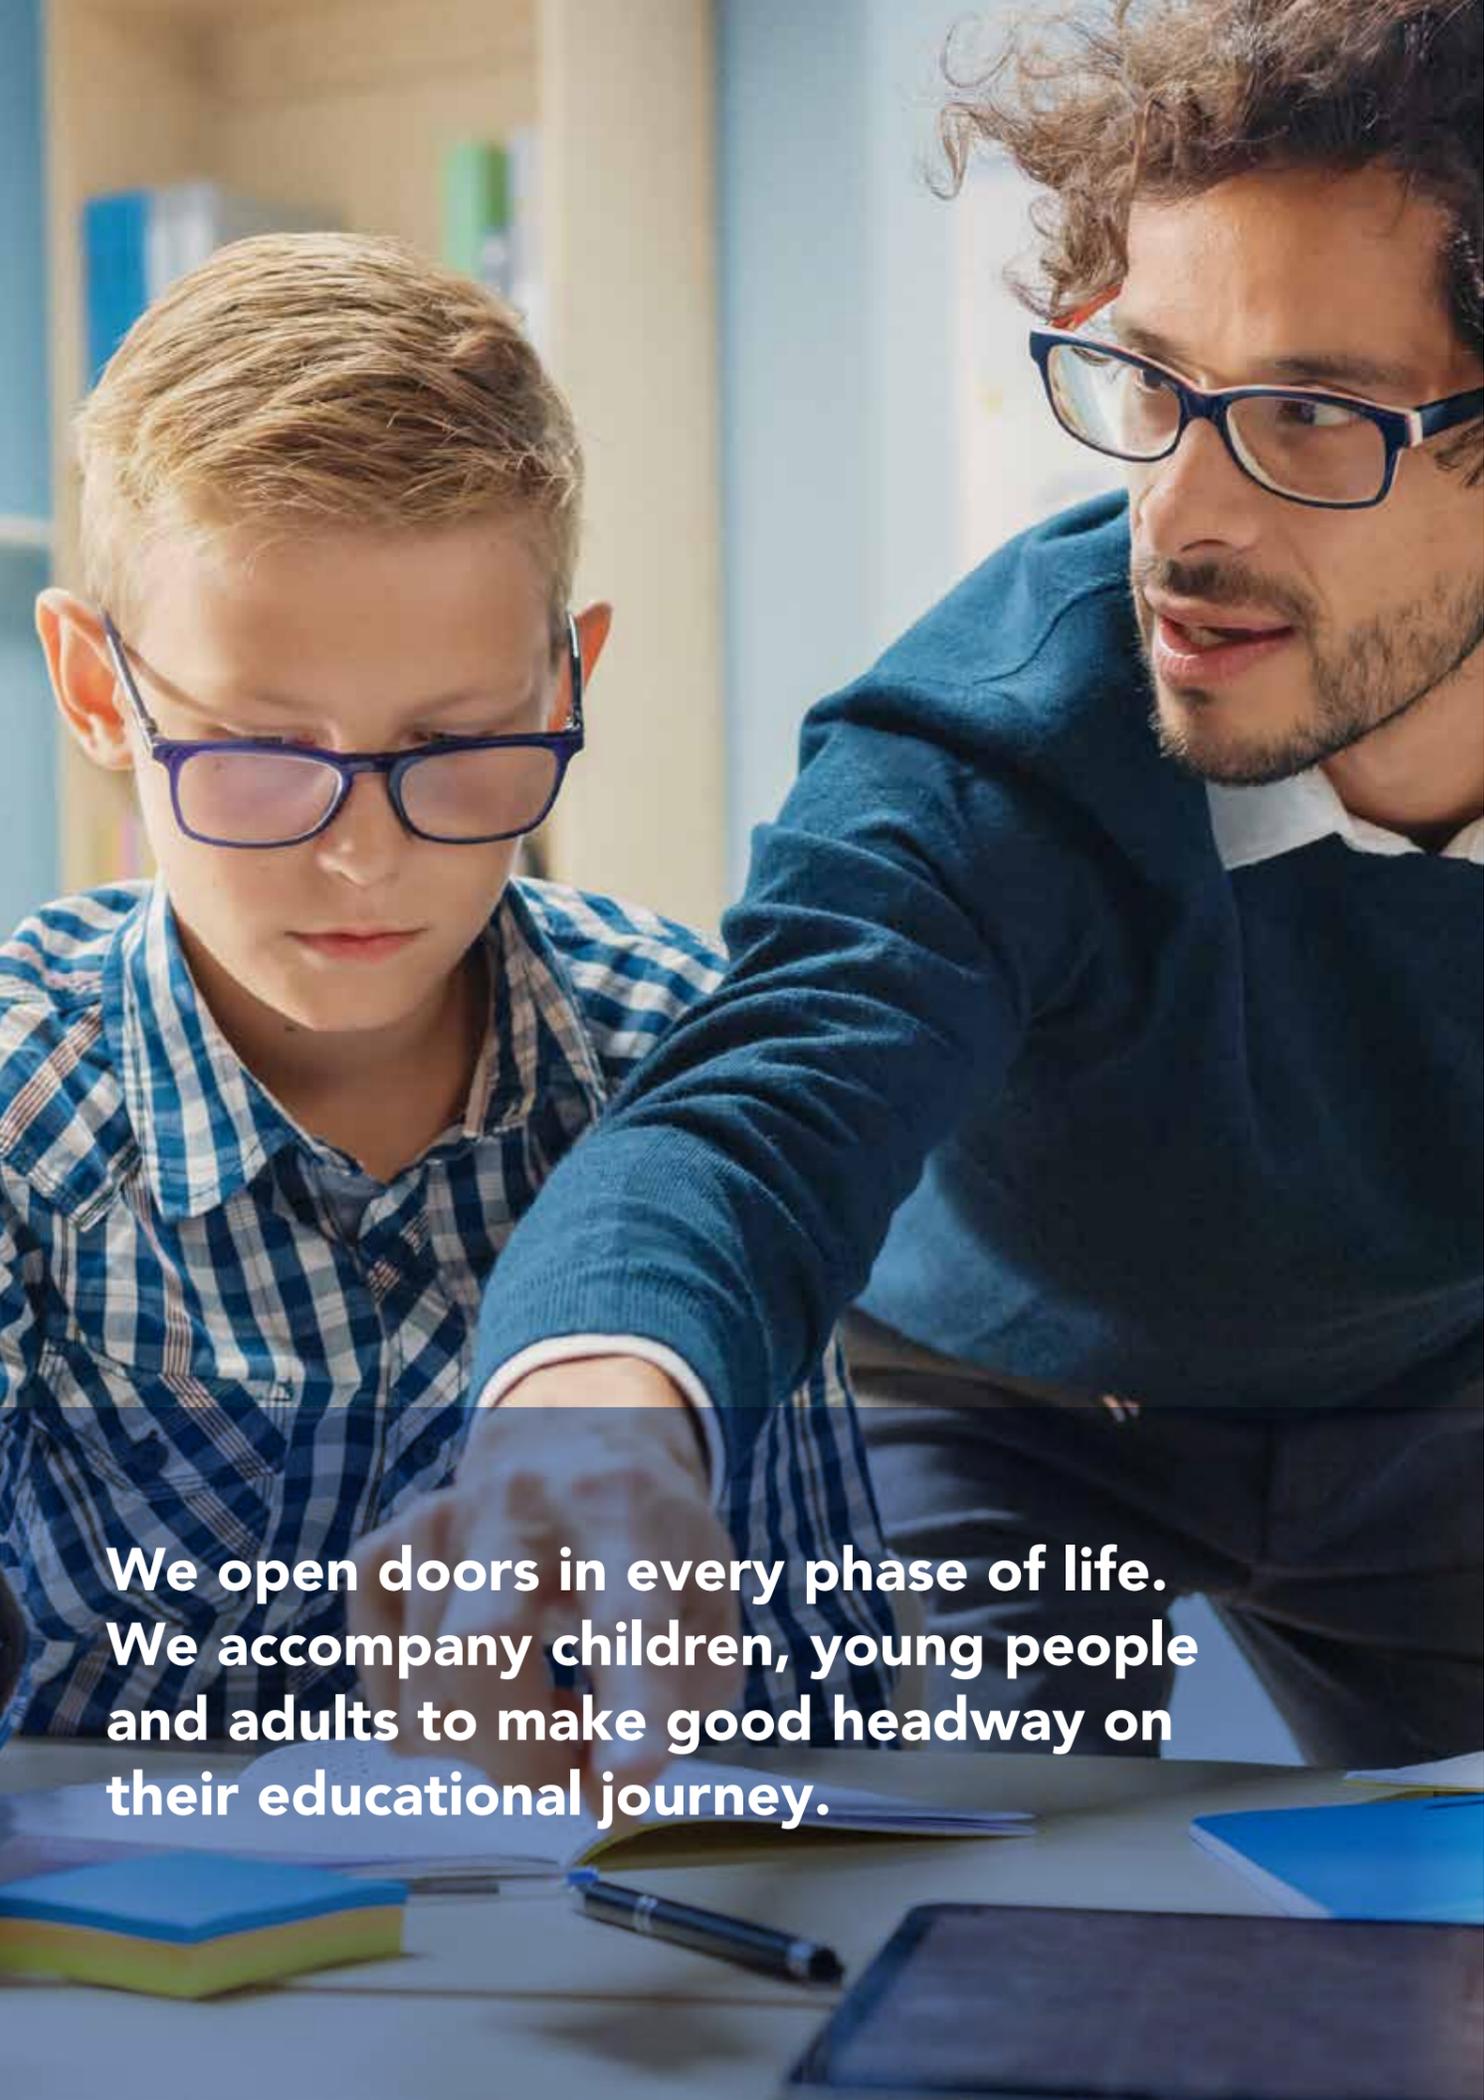

Academia Languages teaches linguistic and cultural skills at all levels and in various languages.

Global Education Services

Academia Global offers worldwide educational services and solutions for internationally mobile families (expats) and their employers.

**We open doors in every phase of life.
We accompany children, young people
and adults to make good headway on
their educational journey.**

Compulsory schooling – German, English or bilingual

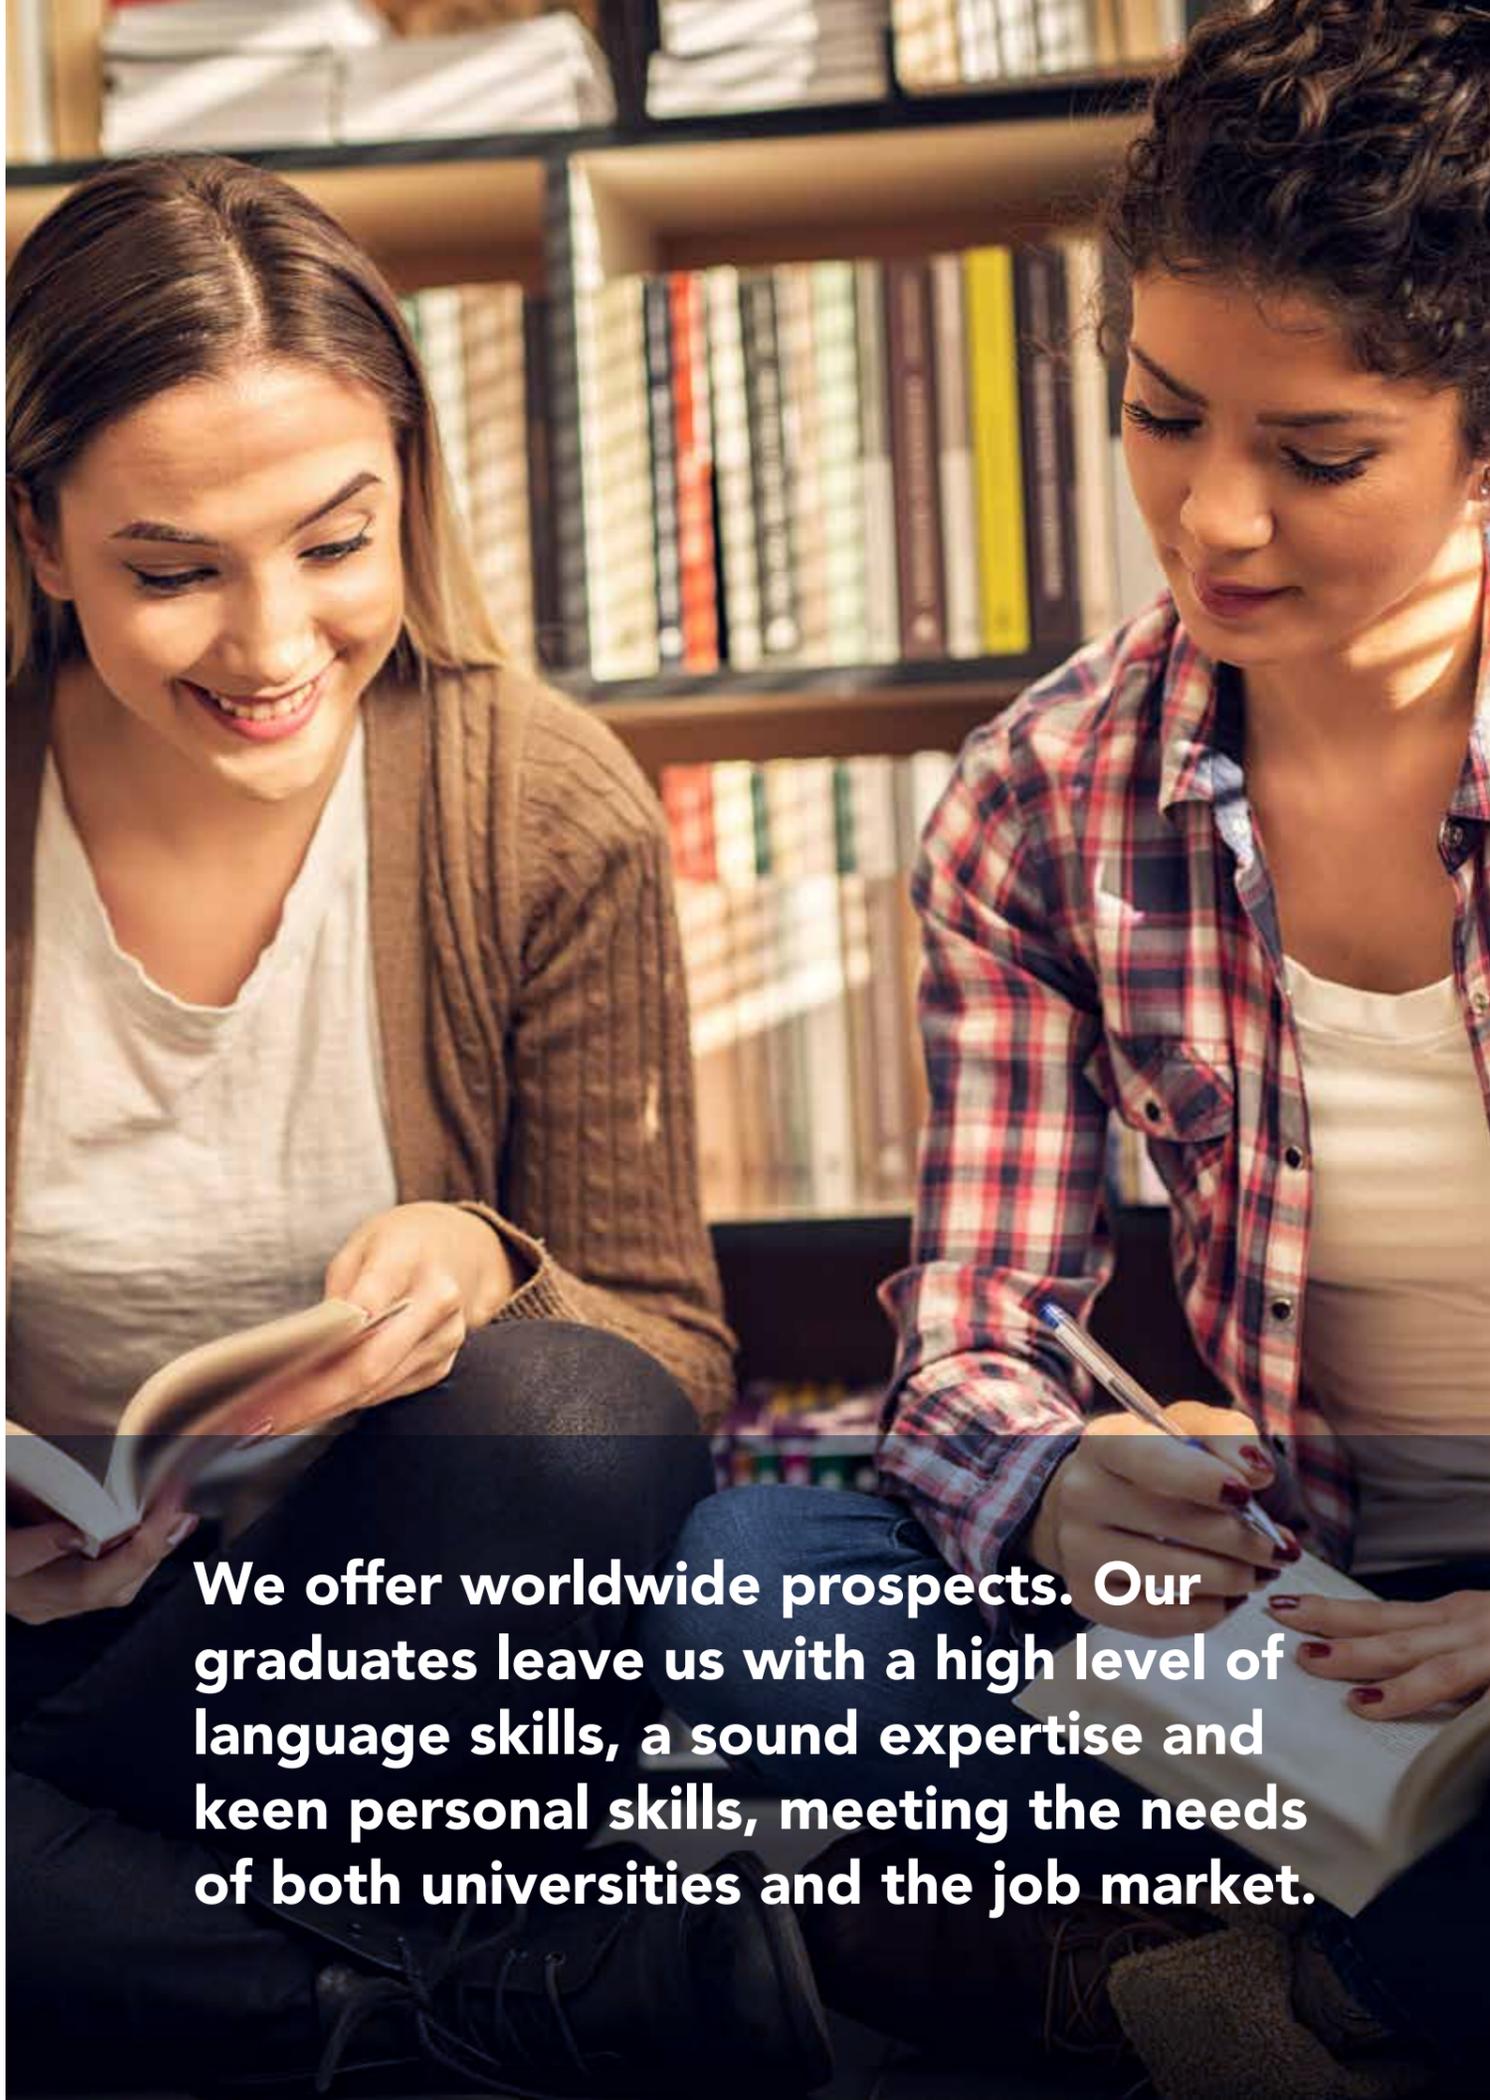

In our schools, children from kindergarten age to the end of compulsory schooling experience a close-knit yet cosmopolitan atmosphere, where they are treated as individuals and are able to develop as personalities. They are given full support throughout but are also encouraged to work intensively and expand their learning, subject knowledge and social skills.

We run three bilingual schools (German/English) in Basel, Küssnacht (ZH) and Winterthur, an English-speaking secondary school in Basel and a German-speaking school in Reinach (BL).

At all of our schools, children are taught according to the official Swiss curriculum (Lehrplan 21), and teaching at our bilingual schools also follows the Cambridge International Curriculum. All of our schools are recognised as private schools by the canton in which they are located.

College education – access to universities and higher education institutions worldwide

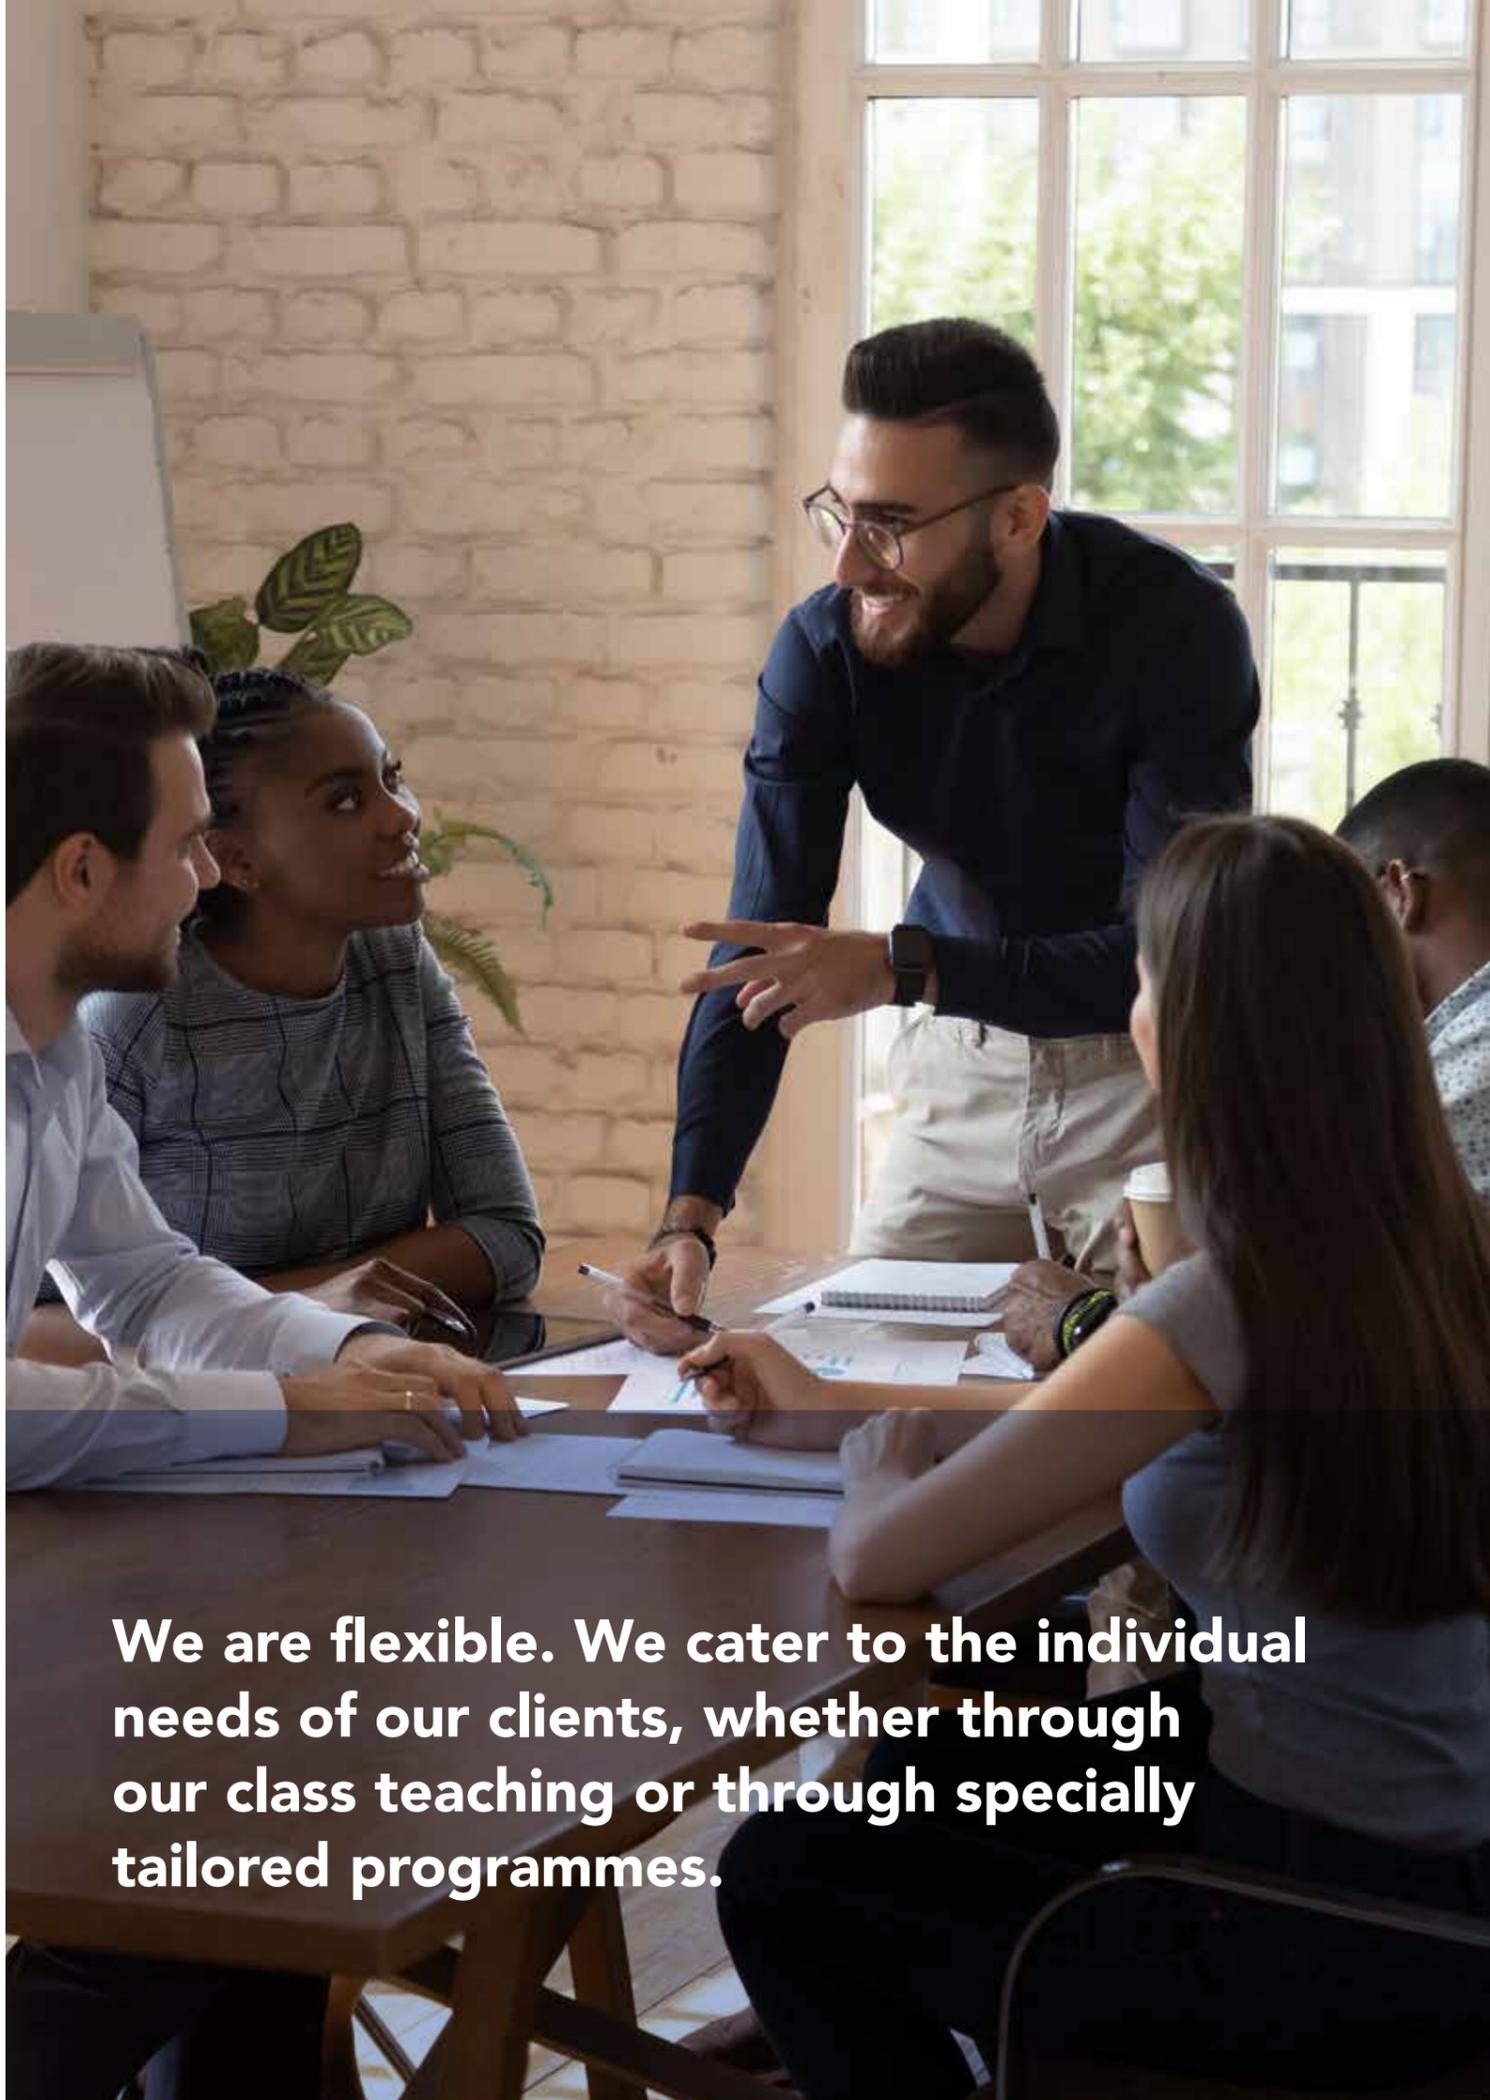

With us, you are able to take International A Levels. These British qualifications are recognised around the world, opening doors to higher education institutions across the globe. You can either attend classes at the English-speaking college in Basel and Zurich or follow a course of individual study with one of our university entrance qualification programmes at various locations throughout Switzerland and online.

A photograph of two young women sitting on the floor in a library, surrounded by bookshelves. The woman on the left is smiling and looking at an open book. The woman on the right is wearing a plaid shirt and is writing in a notebook with a pen. The scene is warmly lit, suggesting a quiet study environment.

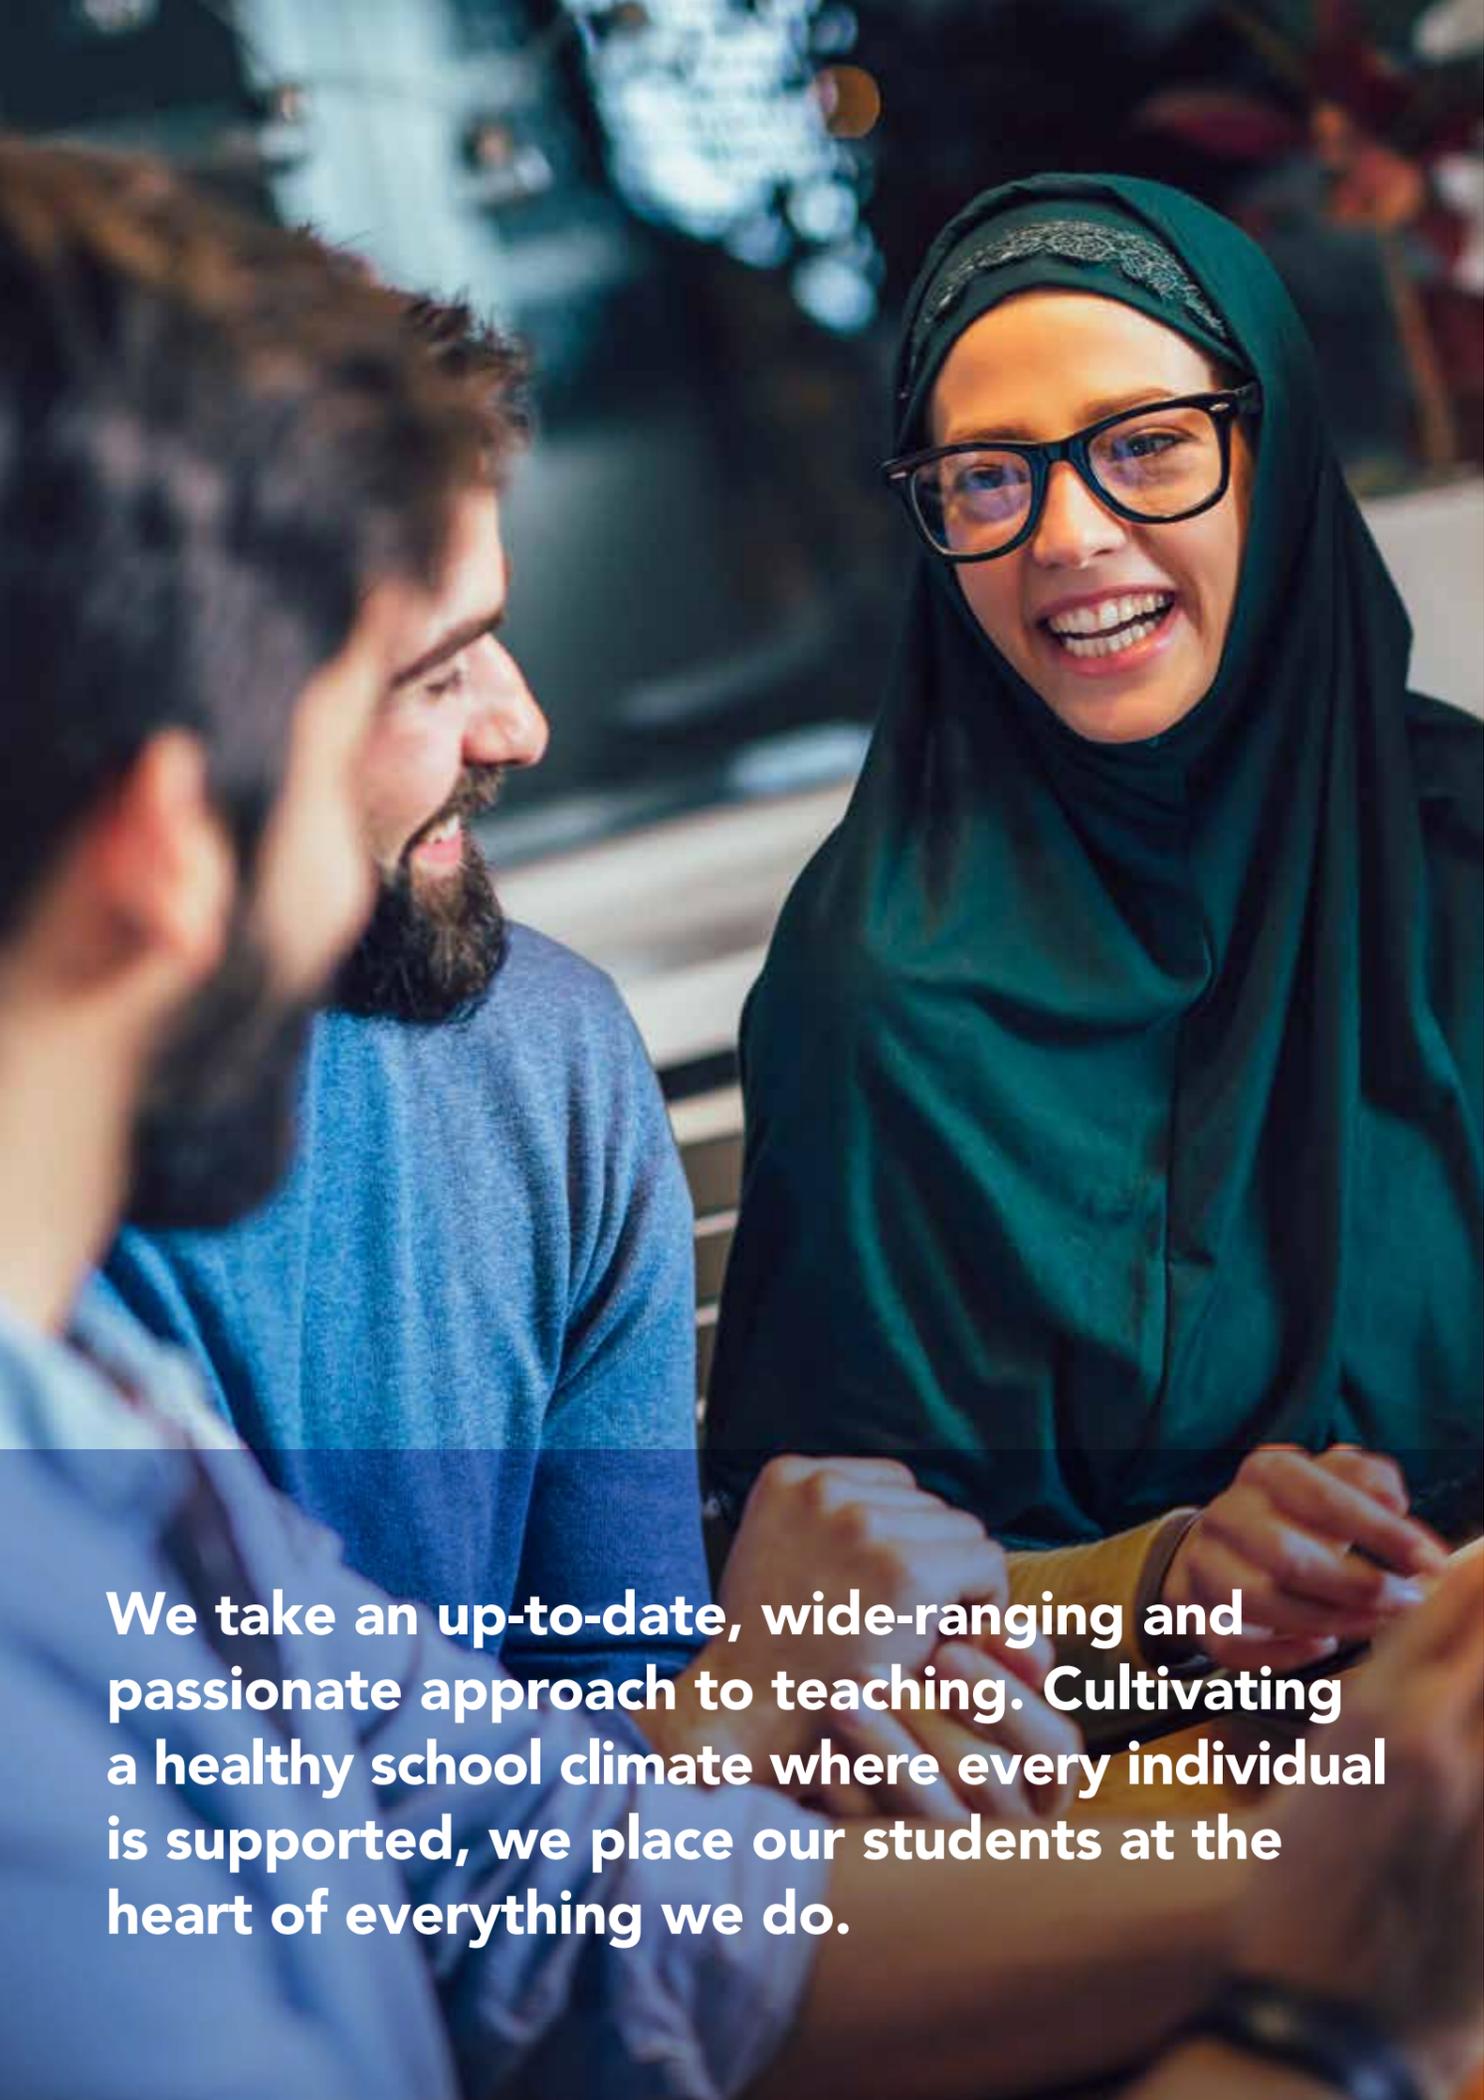

We offer worldwide prospects. Our graduates leave us with a high level of language skills, a sound expertise and keen personal skills, meeting the needs of both universities and the job market.

Language and communication – key skills in a globalised world

Academia Languages, founded in 2005, stands for high-quality language teaching and specialises in company courses. Our flexible courses allow beginners and advanced students to learn their chosen language at their own pace and according to their needs. We are also a licensed telc examination body and a training centre for language teachers, offering accredited SVEB and CELTA qualifications. Our commitment to quality is regularly reviewed by eduQua .

We are flexible. We cater to the individual needs of our clients, whether through our class teaching or through specially tailored programmes.

We take an up-to-date, wide-ranging and passionate approach to teaching. Cultivating a healthy school climate where every individual is supported, we place our students at the heart of everything we do.

Integration programmes for children, young people and adults

15

The aim of our courses and programmes is to ensure that non-German-speaking children, young people and adults are able to integrate into Swiss society as quickly and smoothly as possible.

The intensive German courses at Academia Integration provide them with the basic skills and familiarise them with Swiss culture. To ensure optimal integration, we work with referring agencies, school authorities, local communities and employers.

Individual learning support

At Academia Nachhilfe, we have been supporting and coaching children, young people and adults at all levels and in all subjects since 2009. Teaching is personalised and individual – for long-term success and learning enjoyment.

Global education services

Solutions where needed: since 2019, Academia Global has been offering worldwide educational services and solutions for internationally mobile families (expats) and their employers.

Quality

How we define quality. For us, quality means seeing our students enjoy their learning and achieve their goals.

How we assess quality. The satisfaction of our clients is an important benchmark. We therefore ask them to rate us and our services on a regular basis. We also assess their educational progress and, by the same token, the quality of our teaching, and we conduct internal evaluations.

How we ensure top quality. An individualised educational approach demands a high level of cooperation and consultation. We communicate actively and transparently and involve clients and parents. Through our service-oriented and positive approach, we deliver a productive learning culture.

How we verify quality. Our schools are eduQua-certified or operate under the aegis of the cantonal education authorities. At primary and secondary school level, our German curriculum follows Lehrplan 21. The quality of our teaching in English and the internationally recognised qualifications our students earn are monitored and verified by the world's two most widely known and renowned examination boards: Cambridge International Assessment Examinations and Pearson Edexcel.

Our portfolio

We offer education for every phase of life: Kindergarten, Primary and Secondary School in German, English or bilingual; English-language College, general university entrance qualification programmes for youths and adults, learning support und exam preparations, language trainings, educational and professional integration programmes for children, young people and adults and worldwide educational services.
